

## **Translator Update 2 and Presentation Plan**

Answer the questions below and submit them as a PDF. Please try to keep it brief.

At this point, you should have a working translator and can work with your assigned group to make sure they can write working programs in your language. This process can also help you make your final submission better as you can use any feedback they provide to improve your presentation and translator.

1. Describe any difficulties the other group has had in understanding how to use your language and how you will address those in the final submission.
2. Describe any unexpected difficulties the other group has had in being able to write a working program. Are there features that your translator does not handle? If so, do you have a plan to fix them before the final submission deadline?
3. Did you provide feedback to the other group based on your experience with their language?
4. List any questions or concerns you have about the project so far. Again, I do not have time to “grade” or give feedback on everyone’s work so far. But I can address any specific questions or concerns you might have.
5. Give a brief summary of what each member of your group has done so far.
